Christmas Hamper Drive 2017

Have you ever been surprised at Christmas by the unexpected generosity of someone you know?

Do you remember how good it felt to know that someone cared enough to make life just that little bit easier, just that little bit brighter at Christmas?

Lifeline Harbour to Hawkesbury CEO Wendy Carver says, 'We like to support our clients who might be experiencing financial hardship, social isolation or distress at Christmas time, which is why we distribute our very special hampers to those in need.'

This year, we would love it if you would be part of our donation drive for non-perishable food items and gifts for those we support.

You may not feel like one person could make much difference, or that an extra item in your trolley could change someone's experience of Christmas, but together, we can provide for others what we know to be special about Christmas.

Think of it like a Christmas light – one on its own can shine, sure, but string lots of small lights together, and we have created something magical. And that's what we can do with your help.

This Christmas, please join us by purchasing something extra for someone in need. As you do your Christmas shopping, please collect an extra tin or packet of food, both special treats and basic food items. Gifts are needed for all age ranges and interests, especially teenagers, and can include gift vouchers.

We have collection points around the Ku-ring-gai council area, including Lifeline Harbour to Hawkesbury's Gordon office, the local libraries, or the council's Customer Service Centre in Gordon.

Join us as we share the Christmas spirit.
Together, we can light up the lives of those in need.
